Recurring Billings

Streamline Your Billings & Collections

Oak Merchant SOLUTIONS

The Perfect Solution to Grow Your Business

Minimize late payments and customer collection efforts while simultaneously enhancing your customer retention rates. Recurring Billing lets you process regular credit card payments within the confines of a PCI secure hosted payments solution. Set up subscription services and manage standing orders using our simple, streamlined Recurring Billing solution.

Processing Recurring and Installment Credit Card transactions has never been easier.

How Recurring Billing Works

From a Recurring Billing enabled Virtual Terminal

- Click Add to Recurring to load the information from a transaction into the Add to Recurring screen

- Enter the credit card number, expiry date and amount of the transaction

- Select the billing cycle frequency from the drop-down menu

- For installment transactions, enter the number of payments

- Enter the next payment date, or select from calendar tool

- Click add

That's it! No additional manual intervention is necessary.

Benefits At a Glance

Enabling Oak Merchant Solutions' Recurring Billings Solution is a smart business choice for many reasons, including:

1 **Works on Most Standard Web Browsers**
Turns any web enabled PC into a recurring or installments payment tool.

2 **Hosted Solutions**
No software upgrades - minimized security burden without the need for expensive compliance audits.

3 **Scalable for your Growing Business**
Accommodates up to 20,000 recurring transactions in a single batch.

4 **Enhance your Bottom Line**
Reduce costly collection and bad debt expense.

5 **Focus on New Customer Acquisition**
Improve your Customer Retention Rates by simplifying the sales process. Sending invoices that requires customer action all to often results in a revisiting of the customer buy decision and unwanted turnover.
